## THE MOTHER

### CREATING THE WEB

1. Receiving THE MOTHER is always free of charge.
2. Offering THE MOTHER should always be done personally, while making clear that it should be passed on, in order to continue being part of the web.
3. THE MOTHER is given only in groups of 7 people, either all men or all women. There is no limitation of a woman giving THE MOTHER to a group of men and vice versa, as long as the group is homogenous.
4. In the Giving process the entire group, including the giver, wears black.
5. When one receives THE MOTHER, it stays with him or her for 7 months. In order to extend the connection by 7 more months, THE MOTHER has to be passed on within those 7 months. Every Giving of THE MOTHER extends the period by 7 more months.
6. People who already received THE MOTHER can be invited to participate in the Giving process (wearing black), to answer questions and tell about their personal connection with THE MOTHER. In the Giving process, they contact THE MOTHER in their own way.
7. These pages should be duplicated and given to the group who received THE MOTHER.
8. The Giving stages: Sharing the personal connection with THE MOTHER, what the Giver experienced and received from that connection in his or her life. It's recommended to use examples. Explaining the way the web works and how it is created. Telling the story of how Dov received THE MOTHER (in the attached page). The Giving spiritual process: the giver wears black cloth over his or hers eyes and imagines a star made of 7 rays of fire in his or her heart. Through each ray the energy of THE MOTHER flows to each one of the receivers. The receivers only need to open themselves to the energy. The process takes about 15 minutes, and is done to the sound of a flute (no other music can be used). The copies of the pages are handed out, and its recommended to offer people to go into the website, and to register to the mailing list.
